**In this manual:**

This manual covers all elements of:

**SAVE VIDEO 1.0 LITE / PREMIUM EDITION****Save Video 1.0**

- LITE
- PREMIUM EDITION  
(when it is activated)

**Description:**

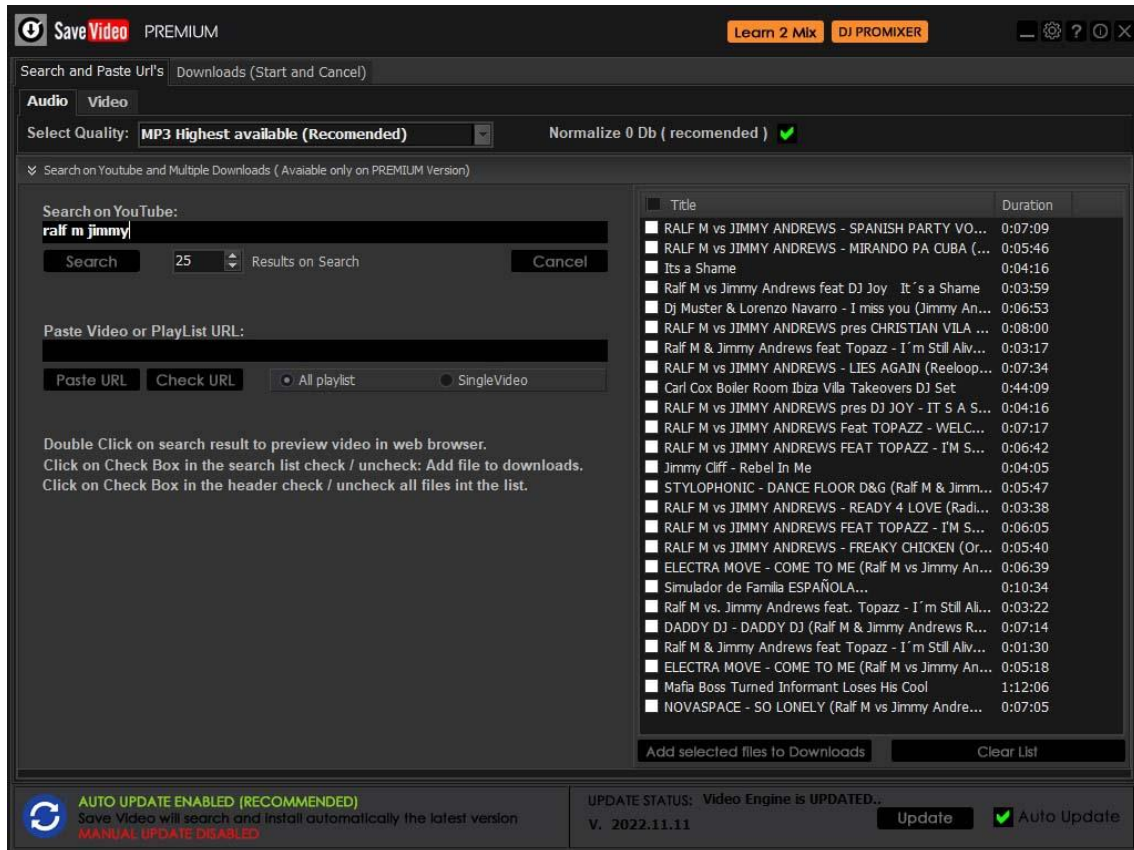

YouTube audio and video file downloader.

**System Requirements:**

1. OS: Windows 11 / Windows 10 / Windows 8.1 / Windows 8 / Windows Vista / Windows XP
2. CPU: Core 2 Duo or higher
3. RAM: 128 MB or more
4. Hard Drive: 15 MB of free space

## Quick Start

## The User Interface (Overview)

Save Video is a comprehensive downloader that provides various options for downloading and converting your favorite YouTube videos into high-quality audio and multiple video files.

**Save Video offers two modes: *LITE* and *PREMIUM*, both of which are entirely **FREE**.**

**NO PAYMENT REQUIRED TO CONVERT TO PREMIUM VERSION.**

More info about [Activation / Deactivation](#)

In return for some of the premium features of Save Video, you may choose to be a peer on the Bright Data network. By doing so you agree to have read and accepted the Terms of Service of the Bright SDK EULA: <https://bright-sdk.com/eula> and Bright Data's Privacy Policy: <https://bright-sdk.com/privacy-policy>. You may opt out of the Bright Data network by clicking "*LITE*" version on the "*Activation Screen*" of Save Video application.

## Convert YouTube videos to audio or video files in multiple formats with just three simple steps

### 1) First Step: Copy the YouTube Link of your favorite video. Important: Copy (do not type).

Once pasted the YouTube link into "YouTube URL" field, all the info will appear into the blank fields, and all the arrows on the right will be changed to green color and change the status for "Ready for Download"

### 2) Second Step: Select the options to download and convert your file (to audio or video files).

Once you have inserted the YouTube link and it's checked, you can change the preferences of the file.

### 3) Download the file:

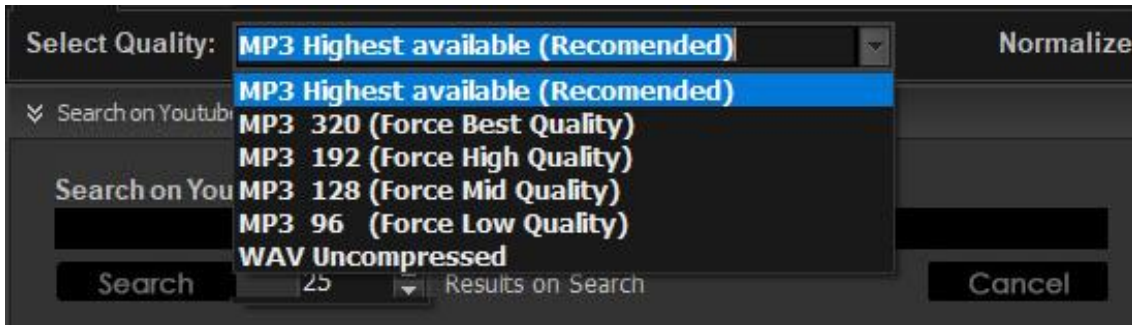

Once you have selected these preferences now you can download the selected file, now the file can be downloaded by clicking "Download" button.

Here you can find also a progress bar with the indication of the steps:

- Download File
- Extract audio.

## Audio options

### Professional audio settings:

Convert to **WAV** or **MP3** files:

- **WAV FILE:** PCM file without compression (44.100 Hz 16 Bits).
- **MP3 FILE** with different bitrates: 320 Kbps (best quality) 192 Kbps (high quality) 128 Kbps (mid quality) 96 Kbps (low quality).

### Normalize (only mp3 file conversion)

---

The Normalize (MP3 to 0 dB) feature is available only in the Premium version.

---

### What is Normalize?

Normalization is a process of uniformly increasing or decreasing the amplitude of an audio file. Normally, it increases an audio file with a low amplitude level (very common on YouTube), improving the sound quality with a professional audio plugin.

File without Normalization

Normalized file

## Video options:

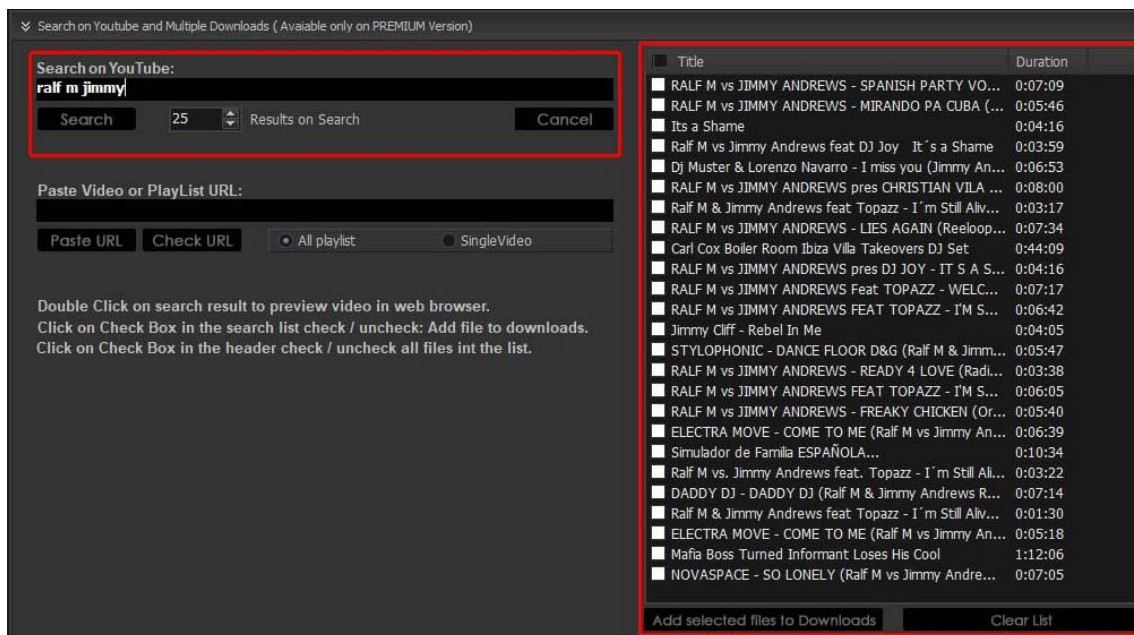

Convert to **WEBM**, **MP4** or **MKV** files:

- Different resolutions (Max, 1080p, 720p, 480p, 360p 240p or 144p).

## All-in-one: The most powerful downloader

### 1) Integrated YouTube search engine:

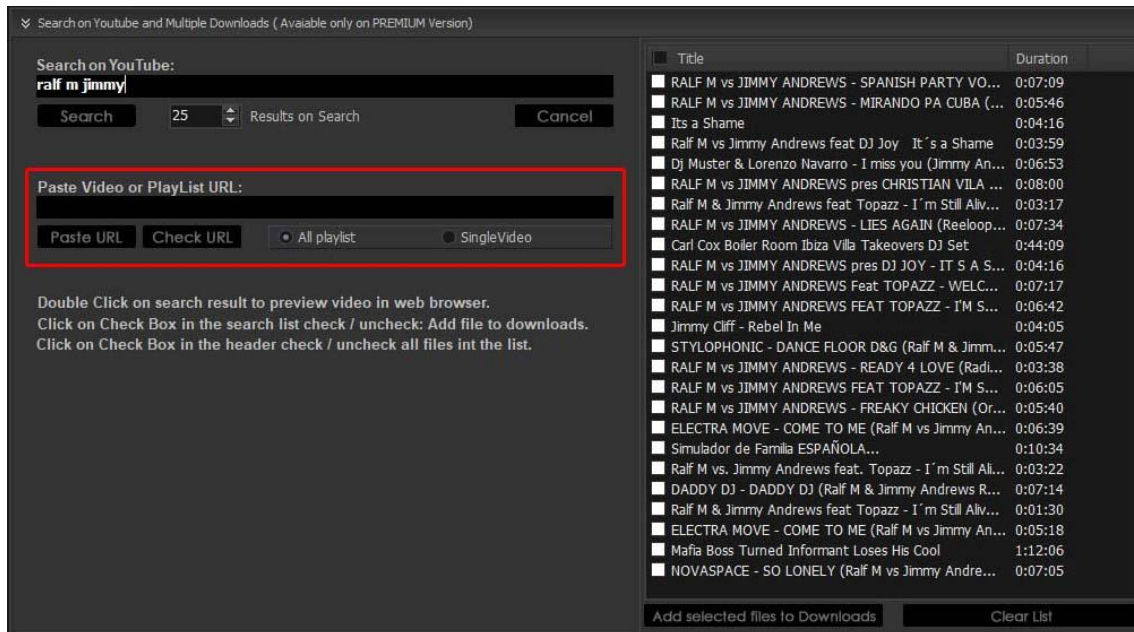

**IMPORTANT:** The "Search on YouTube and Multiple Downloads" function is only available in the Premium version.

- In the video screen, once maximized, it will display the search results on the right side of the screen and the number of results can be adjusted using the arrows (5, 25, 50, up to a maximum of 100), or manually set to 100.

## 2) Single file / YouTube playlist downloader:

**IMPORTANT:** The download of the entire playlist feature is available only in the Premium version.

### Detail

- It offers the ability to download and convert a single video (the selected one) or all the videos in the playlist (mix).

### Auto Update / Manual Update

Save Video has two options for updating the application. Usually, the application should be updated regularly because YouTube periodically changes its links:

- **Auto Update:** Save Video will search and update automatically to the latest version. This is the recommended option and it is selected by default. This option disables Manual Update.

- Manual Update:** Search and update the application manually. If Save Video is not working or if you see "VIDEO NOT FOUND" when checking a video URL, please check for updates by clicking the "Update" button.

**Header**

From left to right, you'll find the activation status (*Premium* or *Lite*), quick access buttons to complementary software (*Learn to Mix* and *DJ ProMixer*), and application utility buttons.

**Application utility buttons:**

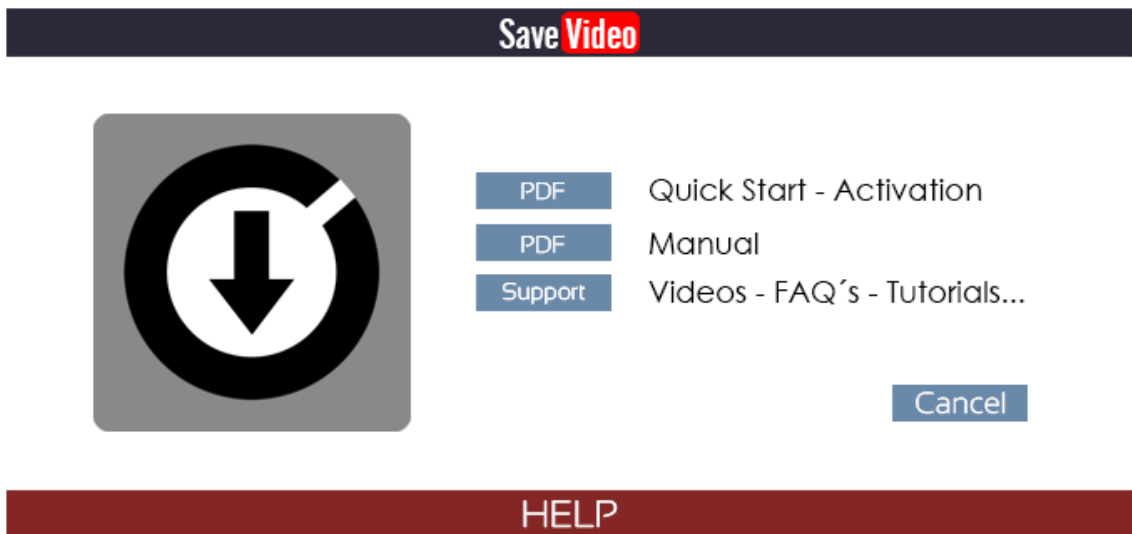

From left to right:

**Minimize:**

This button minimizes the application and moves it to the desktop toolbar.

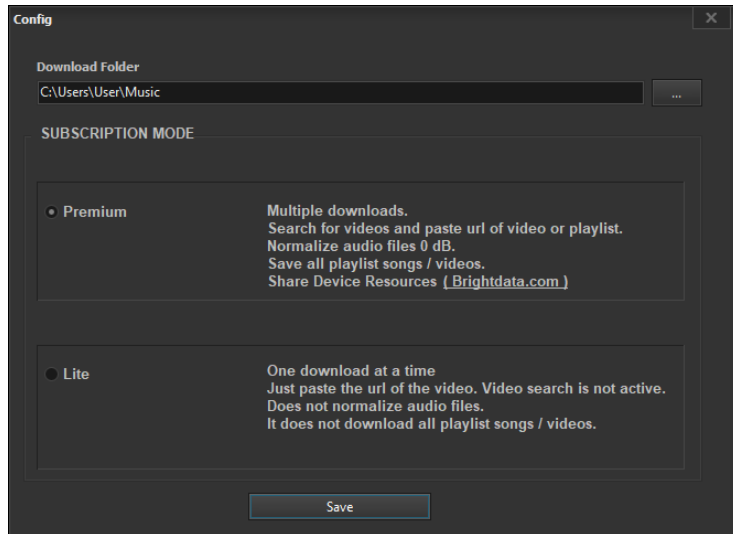

**Help:**

Provides access to the help screen (Manual, Quick Start, Support).

**Setup (Config):**

In the Setup (*Config*), you can configure the download path for files and check (or modify) the subscription mode (*Premium* or *Lite*).

**Info:**

Provides direct access to the Activation / Deactivation screen for Premium or Lite mode, as well as information about the terms and conditions of our partner.

**IMPORTANT:** To activate PREMIUM VERSION, you just need to enable "Web indexing by Bright Data. IT IS FREE [Learn more](#)

**ACTIVATION / DEACTIVATION SCREEN**

**Close the application:**

Represented by the "X" button, this option closes the application.

## Related free software

### 1) Learn 2 Mix

At the top, there's the "*Learn 2 Mix*" button, which gives you access to the "*DJ Sutra*" learning book in electronic format (exe), which is not initially installed.

## 2) DJ ProMixer

Free and professional DJ Software, compatible with DJ controllers (MIDI Learn included), and integrated with Save Video

The screenshot displays the DJ ProMixer software interface. At the top, two tracks are loaded into the mixer:

- Track A:** 03. RALF M VS JIMMY ANDREWS - MIRANDO PA CUBA 5'43" (Pitch 00.10, BPM 130.125)
- Track B:** 02. FREAKIE CHICKEN - ARE YOU A FREAKIE CHICKEN 5'40" (Pitch 00.10, BPM 130.124)

The mixer section features two turntables with waveforms, a central mixer with faders and knobs, and various control buttons like CUE, SYNC, and LOOP. Below the mixer is a playlist table with columns for Track (T), Offset (O), BPM, Artist, Title, and Time.
